

Unit ID **Utility vehicle**
 Component **Diesel engine**
 Current sample number **1700865**

OELCHECK GmbH · Kerschelweg 28 · 83098 Brannenburg

Machine type: **LKW**
 Manufacturer: **Mercedes**
 Oil brand name: **SAE 5W-40**
 Oil quantity in system: **32 l**

Example report
 Analysis scope: Analysis-Kit 2

Diagnosis for the current laboratory values

Wear metals are only present in negligible concentrations. Hardly any abrasive or corrosive wear is therefore visible. If no oil change has happened yet, it is possible to continue using the oil under similar operating conditions and under continuation of the usual maintenance schedule. According to the information you provided, the oil has been changed already. I recommend that you send the next sample at the next service interval or at your regular inspection for trend analysis.

Carsten Heine
