All-inclusive ANALYSIS KIT

for gear oils, hydraulic fluids, greases and coolants from wind energy units

All-inclusive OELCHECK KIT for WIND ENERGY UNITS

OELCHECK simplifies your oil analysis process with the new Wind Kit. Now only one type of analysis kit is needed for all components – you always get the right test scope. Online data entry **www.lab.report** or using our new QR-code makes the system even more comfortable for you.

For grease sample taking we recommend our grease sampling kit including a reusable syringe, a tube and three spatulas.
